DETAILED ACTION

Response to Amendment

1. Applicant's amendment has overcome the previous rejections under 35 USC 102 and 103.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 3. Claim 14 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 has been amended to define a specific species and is no longer generic. Claim 14 is drawn to a different species than that now limited by claim 1. It is not clear how the vibration damping structures 370 are mountable on the active jaw, when they appear to be of one piece with the active jaw. There is no disclosure in the specification that supports pending claim 14.

Allowable Subject Matter

- 4. Claims 1, 3-7, 10-13, 15 and 16 are allowed.
- 5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not disclose or fairly teach clamping means for an abrasive sheet on sheet support, where the clamping means comprise active and

Art Unit: 3723

passive clamping jaws that are movable around a swivel axis and are detachable lockable in a pivoted-out position. The closest art, to Hutchinson, does not disclose or fairly teach both jaws movable around a swivel axis.

Response to Arguments

6. Applicant's arguments with respect to claim 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 571-272-4493. The examiner can normally be reached on Monday-Fridays.
